

# TOXIKULL

## SHORT BIO

After 2016's surprise by the shape of "Black Sheep", Toxikull return with the incredible EP "The Nightraiser" (Mosher / Firecum Records). "The Nightraiser" is a relentless sonic attack that evokes the best elements that made heavy, speed and thrash metal so popular: impressive vocals, a tight rhythm section, blazing guitar solos and carefully crafted melodies.

Fearless, taunting, leather-jacket wearing maniacals Toxikull are a quintet from Cascais, Portugal, who play their metal heavy and fast! Fronted by the brothers Lex Thunder and Michael Blade, Toxikull is one of the most promising european underground bands, when it comes to heavy/speed/thrash, mostly due to the high energy display during their live gigs.

Fear the Nightraiser!
